R.C. No. 158/29 D.P.I.

Station Bellary, *Dated the* 9th April 1929 192

From (Name) M. R. Ry., L. Rama Rao Garu,

(Designation) President, Dt. Educational Council, Bellary.

DISPATCHED 16 APR 1929

To The Secretary to the Government of Madras,

Law(Education) Department.

Madras.

Sir,

Through the Director of Public Instruction, Madras.

I have the honour to bring to your kind notice - that the unspent balance of Rs.2128-0-0 under the head - "Building grant" reserved to be utilized towards part payment in respect of grants sanctioned for the L.P.A.V. Elementary school buildings sanctioned in G.O.No.594 L.F. dated - 6-6-28 could not be paid to the Management of the said school before the end of March 1929 on account of the completion report furnished by the Engineer not being in the prescribed form required under the rules. Attempts were made till the last moment-

(D)

to get the certificate set right out without any result. The amount therefore could not either be refunded as unspent as -- directed in G.O.Nos. 2054 L.E. dated 25-10-28 and 480 L.E. dated 14-3-29.

The amount therefore remains with the Council and will be paid to the management of the said school immediately after the receipt of a proper completion certificate. copy of the certificate furnished by the Engineer is enclosed. The Engineer when asked to furnish a certificate in the proper form complains of certain irregularities in the procedure adopted by the management (copy of Engineer's ~~certificate~~ note enclosed). The certificate already granted however discloses that the work has been completed in accordance with the approved plan and estimate with a few exceptions, that the building is worth Rs.7420 and that a sum of Rs.3710 may be paid as contribution. I beg to request to be informed whether I may accept this certificate and pay the amount under reference to the management.

I have the honor to be,

Sir,

Your most obedient servant,

K Rama Rao

President, Dt. Educational Council, Bellary.

Certificate.

The building has been completed in accordance with the proved plan and the estimate with a few exceptions, which have been taken into account when estimating the value of work done.

The building is worth Rs. 7400. One half this amount Rs. 3700/- may be paid as a contribution.

Certificate. 4

Certified that the work-Construction of Togaon Mission Girls' school Bellary - the exceptions noted in my No.1467 dated 23-3-1929 to Mrs. S.J.Perry Manager Togaon Mission Girls' school Bellary and its enclosures (copy enclosed).

That the deviations are not of such a nature as to affect the staoility of suitability of the building.

It is quite impossible at this stage to give the full details of value of deviations as we were not consulted officially or asked to inspect before the work was started and during execution as will be seen on the front-in-Code.

Copy of letter No. [illegible] dated 20-6-1939, from the Executive Engineer Bellary Division to Miss [illegible] Manager L.M. High School, Bellary.

Subject:--Certificate-Construction of L.M. High School, Bellary.

In order to avoid confusion in future may I draw your attention to paras 53 and 54 of the Grant-in-aid Code particularly 54(III).

The L.M.C. should be asked for a certificate only when it has been proved that a private qualified professional advice is not available. This certainly cannot be proved in a case like Bellary if an institution for such a building is being erected is prepared to pay for this advice.

In this case, although we were asked to give the certificate there was been no official correspondence. According to the rules we should have been given 15 days notice before the building was commenced and we should then have arranged to inspect the soil before the concrete was laid in the foundation trenches and so on. As it is the building work has been left entirely in the hands of the contractor without even an experienced Overseer to look after your interests. The natural result is that a great deal of bad work has been done and has been paid for. I enclose a copy of a few of the objections to the work made by my Sub Divisional Officer, as it may be of assistance to you in future. I think that you should arrange to have Nos. 7, 11 and 12 rectified at any rate. I am only able to give the certificate for the value of the work done because there are several important omissions and faults in the original estimate which have been corrected and paid for by you as additional payments.

(illegible)

Executive Engineer, Bellary.

DK 9429

6 43

Copy of letter No.[illegible] dated [illegible] from the Sub Divisional Officer Bellary to the Executive Engineer Bellary Division.

Subject:--Certificate - Construction of Female Mission Girls' School, Bellary.

I inspected the building and checked the dimensions with the plan and submit my remarks on the items of works provided in the estimate. As the building has been completed I cannot certify about the quantity of materials used and the soundness of structure. I have not examined the foundations of the building. If it is to be examined and certified the manager of the school may be requested to have the foundations exposed in three or four places for checking.

In the estimate there is a lump sum provision of Rs. [illegible] for painting the roof timbers and [illegible] which is not taken as extra. There is also a provision of Rs.[illegible] in the estimate for levelling the ground and clearing the site. An additional sum of Rs. 140/- is now charged extra for forming road and gravelling the road. This appears to be too much.

From my remarks enclosed it may be seen that such works should not be entrusted to private contractors without proper check and supervision.

R.C.C. No. 777 B/29

Station Madras *Dated the* 31st May 1929 192

From (Name) R.G. Grieve Esq., L.A., F.R.G.S.,

(Designation) Ag. Director of Public Instruction.

To The Secretary to the Government of Madras,

Law and Education Department.

Sir,

In resubmitting herewith Government endorsement No. 1758 A-29-1, Law (Education) dated 25th April 1929, I have the honour to state as follows:-

2. Under rules 3(ii) and (iii) in Chapter II of the rules framed under Section 42 (2) of the Madras Elementary Education Act of 1920, the correspondent, L.M.A.V. Girls' School, Bellary, ought to have either placed the work in charge of a private qualified architect or engineer and obtained a completion certificate from him or prior to the commencement of the building, given fifteen day's notice in writing to the Executive Engineer in charge of the Division to enable him to supervise the progress of the work. Under these circumstances only, could the Executive

Engineer have been in a position to grant a completion certificate in the prescribed form with reference to rule 4 (i) in Chapter II of the above rules. But the correspondent of the school has failed to comply with rulings. The Correspondent has stated that Mr. Grant the then Executive Engineer, Bellary Division who signed the plans and estimates of the building was adviser to the Mission Management and visited the building from time to time while it was under construction and that the completion certificate could not be obtained from him owing to his transfer from Bellary Division before the work was completely finished. In the circumstances explained by the correspondent and in view of the facts that the building is certified to be worth Rs 7420 and a half grant of Rs 3710 has been recommended by the present Executive Engineer as the deviations in the original estimate are not of such a nature as to affect the stability or suitability of the building, the present certificate given by the Executive Engineer may be accepted as a special case and the amount under reference be paid to the management.
